

Sharing Challenges of Regional Training Programs for Low Carbon Knowledge

Side Session – Monday September 30, 2013 (15:00 – 16:30):

Venue: Balagtas Room, Peninsula Hotel

HO CHIN SIONG, SATREPS PROGRAM
Development of Low carbon Society in Asian Region
UNIVERSITI TEKNOLOGI MALAYSIA

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

ISKANDAR
MALAYSIA

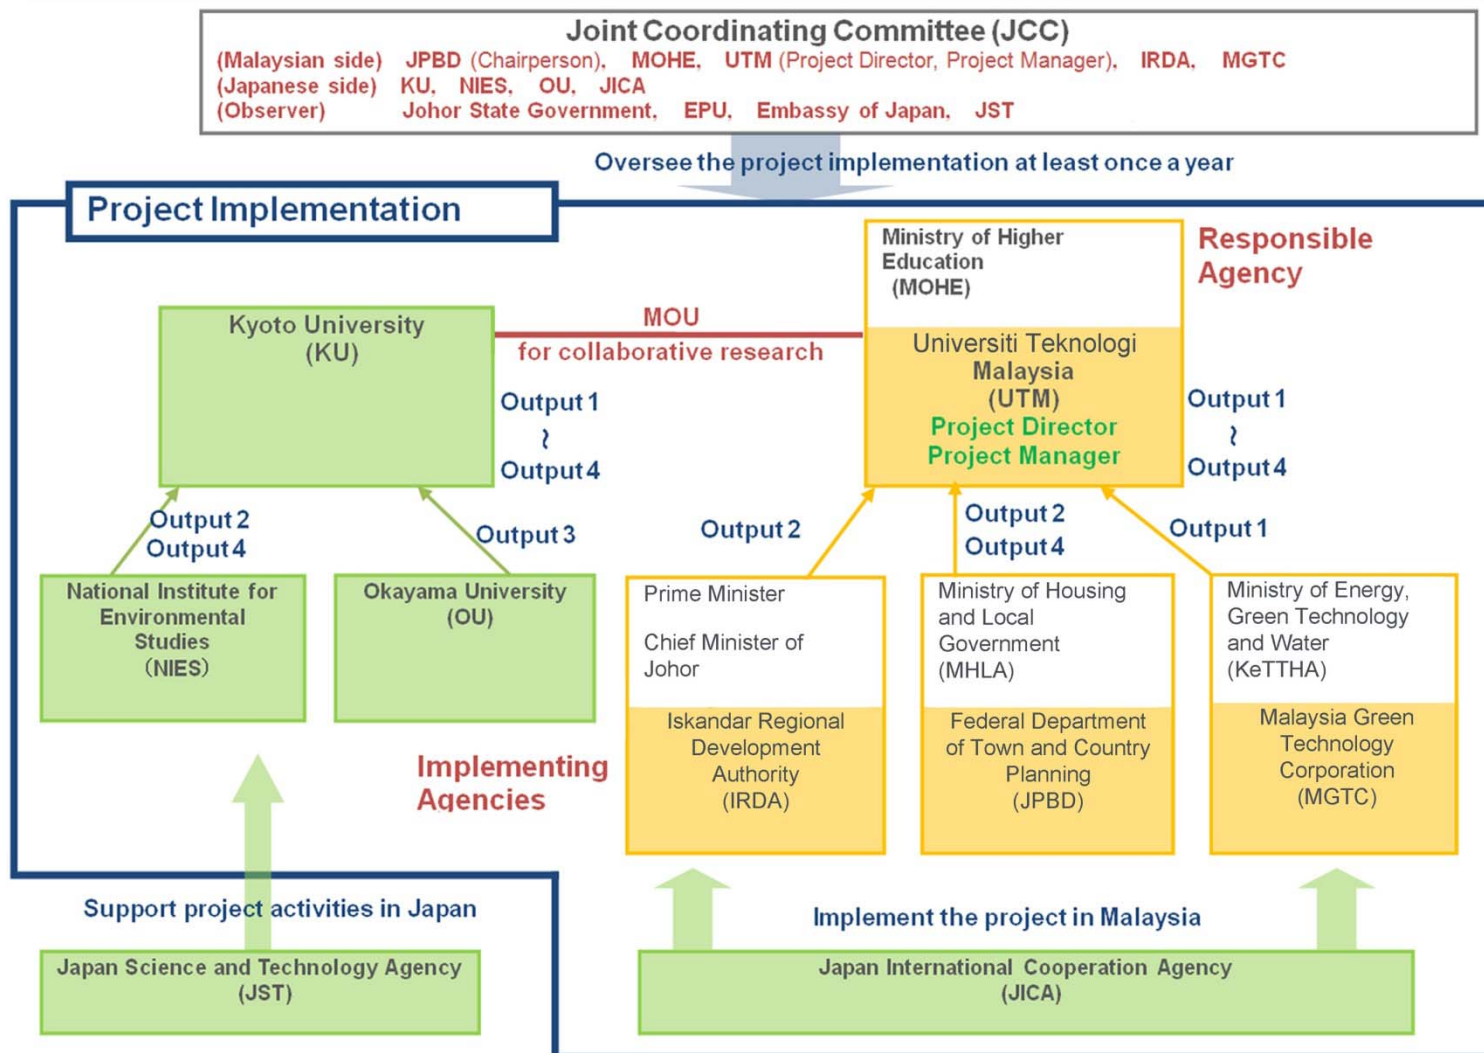

Points of discussion

1. Countries included in their training program
 - ❑ Specific ASEAN countries + 3
2. Technical areas, sectors, methodologies, and key participants for the training
 - ❑ Local authorities – planners / urban managers
3. Approach to evaluation: means of identifying training needs and key learning objectives
 - ❑ Preparation of LCS Blueprint (Dozen action and modeling)
4. Implementation arrangements and strategies for scaling-up and for sustainability
 - ❑ Structure plan (regional to local level)
5. Status and timeline for launch and operation
 - ❑ 2014 onwards on dissemination and workshop

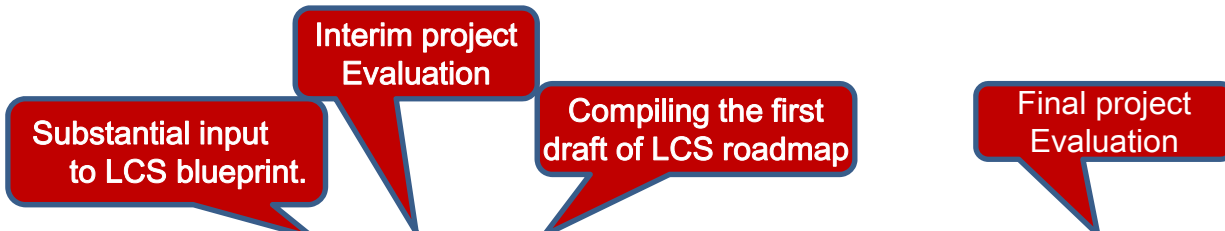

03 Project Framework

Development of Low Carbon Society Scenarios for Asian Regions

OVERALL SCHEDULE OF THE STUDY

	2011	2012	2013	2014	2015
ACTIVITY 1: METHODOLOGY	Apply the whole methodology and tools				Wrap up the project
	Revising and Improvement				
ACTIVITY 2: IMPLEMENTATION	Design the scenarios and roadmaps				
	Details for Implementation Revising and Improvement				
ACTIVITY 3: AIR & SWM	Detailed basic survey				
	System integration				
	Manual development				
ACTIVITY 4: DISSEMINATION	International Expert Workshop once per year International Training Workshop once per year				

LCS Actions for IM – Work Breakdown Structure

Development of Low Carbon Society Scenarios for Asian Regions

Work Breakdown Structure of 12 LCS Actions

Themes & New List of the Dozen Actions

	New Action Names	Themes
1	Integrated Green Transportation	GREEN ECONOMY
2	Green Industries	
3	Low Carbon Urban Governance	
4	Green Buildings and Construction	
5	Green Energy System and Renewable Energy	
6	Low Carbon Lifestyle	GREEN COMMUNITY
7	Community Engagement and Consensus Building	
8	Walkable, Safe, Livable City	GREEN ENVIRONMENT
9	Smart Growth	
10	Green and Blue Infrastructure	
11	Sustainable Waste Management	
12	Clean Air Environment	

AMIK THE MODEL

Thank you for your attention!

Thank You Terima Kasih 谢谢 धन्यवाद ありがとう,
